- TouchIT Interactive Whiteboard with ceiling mounted long throw projector €2,350*
- TouchIT Interactive Whiteboard with wall mounted short throw projector €2,580*

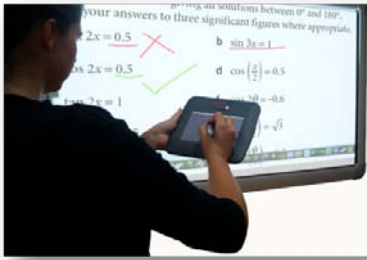

eBeam Interactive Unit

Convert your existing dry marker white board into an interactive white board using an eBeam.

- eBeam Interactive Unit (with ceiling mounted long throw projector) from €1,640*
- eBeam Interactive Unit (with wall mounted short throw projector) from €1,870*

** Above prices include VAT, full installation with mounted 2000 lumen XGA projector, classroom sound system, onsite training and lifetime product support.*

Wireless Tablet

The TouchIT RF Wireless tablet gives you full control of your computer from anywhere in the classroom. An ideal companion for any display, screen or interactive white board.

Price €130 (includes VAT)

Student Response System (Voting System)

Touch IT handsets allow students to participate in classes by responding to questions on the board. Teachers are able to collect real-time data through 'question and answer sessions'; the results of which can all be saved in reporting software for further analysis at a later date.

24 User System Price €300 (includes VAT)

Easi - View Visualiser

Designed with schools in mind, this Visualiser brings together all the most popular features of a visualiser at a fraction of the price. Developed from teacher ideas, it is simple to use for both teachers and students.
