

VISION | TECHCONNECT MODULAR FACILITY PLATE KIT

CLIP-IN MODULES

Featuring robust clip-in modules, built for tough environments. Fast fitting.

ATTRACTIVE DESIGN

The new attractive surround now fits dado backboxes as well as ordinary ones. Plus it allows more space for the cables behind the faceplate.

BACKBOXES FOR FLUSH AND SURFACE MOUNT

Fully redesigned backboxes are easier to fit than ever and don't shatter. Also available as a spare is the new double-gang mud-ring which allows the Techconnect to be flush-mounted.

UPGRADEABLE MODULAR FAMILY

Order as individual parts or convenient packages. The Techconnect is the only family of products which seamlessly integrates connectivity, audio, and projector control in one modular format.

HIGH QUALITY CABLES

Installation-grade VGA cables all feature 'Display Data Channel' cores for true plug-and-play. All Vision cable has high quality copper and features properly distributed shielding.

RoHS COMPLIANT

EU legislation dictates that lead-free solder must be used when soldering. The Techconnect is a solderless system meaning you can get on with the job.

PRE-PREPARED

All cables have a moulded connector at one end to fix to the projector to avoid soldering at the top of ladders and the other end is stripped ready for fixing to the Techconnect connectors. This makes cable routing through tight spots easy. Cables can easily be cut down to length.

QUICK AND EASY

Modules have 'Phoenix' screw termination for reliability and to avoid dry joint connections. No soldering proficiency is required

Standard Package
for comprehensive installations

Lite Package
for basic installations, allowing spare space for other modules including the amplifier or control module

Single-Gang Package
for the simplest of installations

Spares: All parts shown above are available individually and all cables are available individually in 10, 15 and 20m lengths. In addition, the modules shown below are also available.
